FIA Formula 1 World Championship™

2026 UNITED STATES GRAND PRIX

COMPETITION INFORMATION

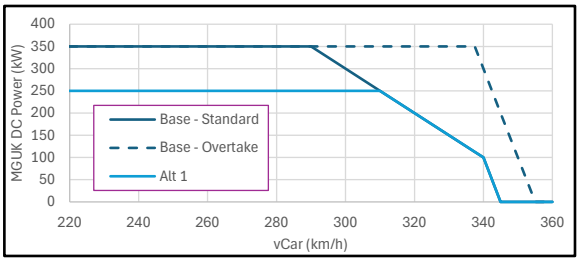

ROUND No.	R18
VENUE	Austin
CENTRELINE	5.513 km
FORMAT	Standard
DATE	22-25 October

POWER AND ENERGY LIMITS

Article C5.2.10 Maximum Recharge per lap					**Article C5.12.8** Maximum PU Power Reduction Rate	
Race		Qualifying	Free Practice sessions	Out laps other than in Race	Power Limited Distance	Rate Limit
Overtake not active	Overtake active					
8.5 MJ	**9.0 MJ**	**8.5 MJ**	**9.0 MJ**	**9.0 MJ**	**2847 m**	**100 kW/s**

Article C5.2.8 Maximum DC power of ERS-K function of car speed			
Sprint & Race			Any Practice Session incl. Qualifying Sessions
Main Overtaking Zones		Other parts of the Lap	
Overtake not active	Overtake active		
Base - Standard	**Base - Overtake**	**Alt 1**	**Base - Overtake**

IDENTIFICATION OF SECTORS WHERE EXCEPTIONS APPLY

Article C5.2.8iii Sectors where the alternative power curve defined above applies in Sprint & Race		**Article C5.12.4** Sectors where the PU power reduction at the start of a Power Limited Pending period can be greater than 150kW *(sectors indicated by [ ] are for SQ and Q only)*			**Article C5.12.5** Sectors where a reset of MGUK power reduction is permitted *(sectors indicated by [ ] are for SQ and Q only)*	
Identification of Sectors	Lap distance window [m]	Identification of Sectors	Lap distance window [m]	Maximum PU power reduction permitted	Identification of Sectors	Lap distance window [m]
T4-T8 **T12-T20**	**1300-1850** **3700-5250**	**T4-T8** **T12-T15** **T16-T20** **[Exit T20]**	**1300-1850** **3700-4200** **4500-5250** **[5280-5500]**	**350kW** **350kW** **350kW** **[350kW]**	**Exit T16** **[Exit T20]**	**4500-4750** **[5350-5500]**

Article C5.12.7 Sectors with a higher speed threshold		
Identification of Sectors	Lap distance window [m]	Speed threshold
T16-T17	**4430-4600**	**250km/h**

OVERTAKE

Article B7.2		
Detection Gap	Detection Line [sLap & Loop] (Art. B7.2.1b.viii)	Activation Line [sLap & Loop] (Art. B7.2.1b.ix)
1.0 s	**5326 m** **L21**	**5420 m** **L1**
