		Time	15:40

Technical Delegate's Report

After the race in Baku, car number 16 was randomly chosen among the top ten cars for more extensive physical inspections.

Subject to these physical inspections was the ICE air intake cooling system as well as the wiring loom and all attached sensors.

Concerning the mechanical side of these inspections the following items were checked:

- Compliance with Article C5.6.
- Compliance with Article C5.22.
- Compliance with Article C5.23.
- Compliance with Article C7.
- FIA-F1-DOC-001 submissions.

Concerning the electronics side of these inspections the following items were checked:

- Identification of the sensors and their connections to the FIA standard ECU.
- Data logging of signals.
- Homologation status of the sensors.
- FIA-F1-DOC-001 submissions.

All inspected components were found to be in compliance with the 2026 Formula One Technical Regulations.
